Our Company

We believe in the one-on-one business model, where we assist our clients thoroughly from start to end, moving along with mutual understanding, respect and innovative mindset in order to find solution to their hardest challenges. Engaging the best possible resource set to achieve the required outcome with balanced approach and leading strategy is our profound competence.

What is Real Estate CRM?

CRM (customer relationship management) software is a tool that helps organizations to provide their customers with a unique and seamless experience. It maintains track of sales, organizes and prioritizes opportunities, and facilitates collaboration between various teams.

Why My Propmatrix ?

We are purely focused on reducing the total time a sales rep spends on any operational task that doesn't involve directly interacting with customers. We do this with hyper-automation, customer journey designer, and regimentation.
